Allergens

The Viterra Pulse facilities are dedicated to processing only pulses. There is no risk of cross contaminants within production facilities.

Allergens such as wheat, soybeans and mustard may be present in the raw material (due to crop rotations and on-farm practices)

Pulses are dry cleaned prior to shipment but trace amounts may still be present.

Viterra cannot guarantee that their products are 100 % free from traces of wheat or soybeans in their final product. Allergen statement available upon request

Guidance on use of information:

The information in this specification should be taken as a guide only. Values can vary with variety, conditions of growth and age of the product when used. We have taken a reasonable effort to ensure that the information is true and accurate at time of writing.

Intended Use:

This product is an agricultural commodity processed in order to meet or exceed this specification as detailed above and is intended for sale to manufactures and wholesalers. It is the responsibility of the purchaser to ensure the product is suitable for sale to their business and retail customers. This includes provision of the appropriate consumer labelling content that incorporates a 'direction for use statement' and/or 'warning statements' to mitigate any risks arising from the nature of the product (i.e: further cleaning/rinsing/cooking prior to consumption)
